Statement of Compliance and Request for Acceptance Testing of a Fire Protection or Detection System

Before requesting approval of the installation, where required by the Authority Having Jurisdiction (AHJ), the installing contractor shall furnish a written statement to the AHJ that the subject fire protection system has been installed in accordance with approved plans and has been tested in accordance with the manufacturer's specifications and the appropriate installation standard.

Any deviation from the design standards shall be noted and copies of the approvals for such deviations shall be attached to the written statement. The above referenced Statement of Compliance shall be furnished to the Kern County Fire Department upon request for a final inspection of any fire protection or detection system installation. **If the test fails, a \$500.00 re-inspection fee will be applied.**

This Statement of Compliance shall be completed by the installing company, with the project name and address clearly indicated, along with the type of fire protection or detection system installed. The installer shall print and sign their name to this Statement of Compliance. Certifications or information may be required at the final inspection, such as aboveground and belowground test certifications for sprinkler and standpipe systems or record of completion forms for fire alarms systems.

Instructions for Completing the Form:

Please fill out the form completely and legibly. Indicate the permit number and the address just as they are shown on the permit that was issued to you for this work. Check the box indicated if the system installed was for the entire building. Otherwise, use the space provided to describe the specific area of the building where the work was performed. If there are multiple locations, and the space on the form is inadequate, then attach any additional sheets that are needed. "License Holder" refers to the individual that is required to sign the permit application; that same individual must sign the "Statement of Compliance".

Permit Number: _____

Address Shown on Permit: _____

City: _____

Check here if the work performed was for the entire building. If not the entire building, indicate the specific locations for which this request is being made:

Indicate the Type of System Installed: Fire Alarm, Automatic Fire Extinguishing System, Underground/Overhead, etc.:

Name of Installing Contractor: _____

License Holder: _____

License Number: _____

Statement of Compliance

I, _____ do hereby certify that the _____ system
(Name of license holder or representative)

that was installed, under the above referenced permit, is in accordance with the approved plans and has been tested in accordance with the manufacturer's specifications and the appropriate installation standard.

Signed: _____
